

Please keep K-Love on the air! As a Christian, having a Christian radio station is very important to me. K-Love is especially important because they don't have irritating commercials and it is very family friendly. Also, unlike a lot of Christian stations, they don't have a lot of talk shows which is good for those of us that prefer just music. K-Love is in good public interest because they only play things that are uplifting and encouraging - nothing that would ever encourage wrongful behavior. It is a safe place for families. Please don't take it away from us.
